Corporate Overview

Texas Microelectronics is a Veteran Owned Small Business that specializes in:

- Hi-Temperature
- Hi-Reliability
- Hi-Shock/Vibration
- Packaged Discretes
- Hybrid Microcircuits
- Multi-Chip Modules for harsh environments

Industries

- Oil & Gas
- Aerospace
- Defense/Military
- Drone
- Geothermal Energy

Services

- Hi-Temp Designs to 235 °C
- Custom Engineering
- Custom Packaging
- Electrical Testing
- Temperature Testing -65 °C to 250 °C
- Obsolescence Solutions with Device Emulation

Company Data

- Cage Code – 7Q057
- DUNS – 078400507
- Veteran Owned Small Business
- NAICS – 334419 (Primary), 334413, 335999
- PSC – 5962, 5980
- FSC – 3635, 3670

Differentiators

- High Temperature to 235 °C
- ISO9001-2015 / AS9100
- Engineering Design Services
- All design and manufacturing done in Texas
